

Call for Posters

Having been established in 1999, the Cryptographic Hardware and Embedded Systems (CHES) conference is the premier venue for research on both design and analysis of cryptographic hardware and software implementations. As an area conference of the International Association for Cryptologic Research (IACR), CHES bridges the cryptographic research and engineering communities, and attracts participants from academia, industry, government and beyond.

CHES 2018 will take place in Amsterdam, The Netherlands, September 9–12, 2018. The conference website is accessible at

<https://ches.iacr.org/2018>

Following their success in previous events, the technical program at CHES 2018 will be supplemented by various additional activities. To this end, we invite proposals of interest for a poster presentation session to be held during the conference:

- At the (informal) poster presentation session, authors display a prepared poster outlining, e.g., work in progress; this offers an ideal means of discussing and getting feedback on said work, and engaging with the wider CHES community.
- Proposals are welcomed on *any* topic of broad interest to the CHES community: the stated topics of interest for CHES 2018 should not be interpreted as a limit.
- Rather than a poster, the proposal should be a 1-page PDF clearly stating the following information:
 - a title,
 - an author (or list thereof), including name, affiliation, and email address,
 - an abstract of up to 500 words.
- Proposals (and/or any questions) should be submitted by email to Sonia Belaïd (Poster Session Chair) at

sonia.belaid@cryptoexperts.com,

noting the following deadlines:

- ~~Submission: 30 June 2018~~
- ~~Notification: 30 July 2018~~

Although the deadline has now passed, we will continue to accept poster submissions on a first-come, first-served basis until the venue capacity is reached.

- The notification of acceptance will specify any further logistical details required. However, note that
 - at least one author for each poster must be available for discussion during the CHES 2018 poster session,
 - to match the display boards available, each poster must have an A0 portrait format,
 - the author(s) of each poster are responsible for printing and shipping it.
