

Call for Posters

Having been established in 1999, the Cryptographic Hardware and Embedded Systems (CHES) conference is the premier venue for research on both design and analysis of cryptographic hardware and software implementations. As an area conference of the International Association for Cryptologic Research (IACR), CHES bridges the cryptographic research and engineering communities, and attracts participants from academia, industry, government and beyond.

CHES 2022 will take place in Leuven, Belgium, September 18–22, 2022. The conference website is accessible at

<https://ches.iacr.org/2022>

Following their success in previous events, the technical program at CHES 2022 will be supplemented by various additional activities. To this end, we invite proposals of interest for a **poster presentation session** to be held during the conference:

- At the informal poster presentation session, the accepted authors will display a prepared poster outlining ongoing work. This offers an ideal means of discussing and getting feedback on said work, and engaging with the wider CHES community.
- Proposals are welcomed on *any* topic of broad interest to the CHES community: the stated topics of interest for CHES 2022 should not be interpreted as a limit.
- Rather than a finalized poster, the proposal should be a 1-page PDF clearly stating the following information:
 - a title,
 - an author (or list thereof), including name, affiliation, and email address,
 - a description of the work that can include figures or references.
- Proposals (and/or any questions) should be submitted by email to Mélissa Rossi (Poster Session Chair) at

melissa.rossi@ssi.gouv.fr,

noting the following deadlines:

- Submission: **11 July 2022**
- Notification: 12 August 2022
- The notification of acceptance will specify any further logistical details required. However, note that
 - at least one author for each poster must be available for discussion during the CHES 2022 poster session,
 - to match the display boards available, each poster must have an A0 portrait format,
 - the author(s) of each poster are responsible for printing and shipping or bringing it.
